EIP join event on Brexit, IP and tech

EIP's Heather McCann and Paula Flutter will be joining Fieldfisher's Mark Webber and Laura Berton to discuss the implications of Brexit on businesses from a technology perspective.

The event, which is to be held over breakfast, will explore contractual, IP and privacy impacts of Brexit, before further discussing how businesses can "Brexit-proof" their contracts and IP strategy.

The breakfast will take place on Thursday 6 December in California.
