EIP partners join One Nucleus for BioWednesday webinar

This Wednesday, 20th May, EIP Life partners [Andy Sharples](#) and [Monika Rai](#) will speak at One Nucleus' BioWednesday webinar on 'Enabling Access to Medical Technologies - Compulsory Licensing, TRIPS and FRAND'.

Andy and Monika will be joined by University of Leeds Professor Graham Dutfield to talk about lifting the patent barrier to access medicines, including the principles of FRAND and compulsory licensing/ TRIPS Agreement. The discussion will also reference the current COVID-19 situation as an example of how licensing could work.

Further details of the event can be found [here](#).
