

EIP

Managing Designs and Trademarks after Brexit

Following the end of Brexit here at EIP we can advise on the protection of your designs and trademarks.

We can represent your design applications at the UK IPO, EU IPO and USPTO through our offices in UK, Germany and USA. We can also arrange for protection of your designs internationally, either using the International Design registration system under The Hague agreement, or using local attorneys in each jurisdiction.

For more information on how we can assist with Designs [click here](#).

We can advise on the protection of your trademarks, and represent your trademark applications at the UK IPO, EU IPO, GPTO and USPTO through our offices in UK, Germany and USA. We can also arrange for protection of your trademarks internationally, either using the International Madrid registration system, or using local attorneys in each jurisdiction.
