

EIP

Three EIP individuals ranked amongst world's leading patent professionals

EIP has once again been ranked amongst the world's leading Intellectual Property firms by the IAM Patent 1000 – with three partners singled out as outstanding practitioners.

The third edition of the IAM Patent 1000 – The World's Leading Patent Practitioners, recommends EIP as one of the top UK-based firms for patent prosecution. Researchers recognised EIP for its “cradle-to-grave offering encompassing the entire patent lifecycle”.

Jerome Spaargaren and Heather McCann were named amongst the top professionals in the UK for patent prosecution, and Gary Moss was also highly ranked as a leading IP litigator in the UK.

The rankings are based upon interviews with private practice lawyers and attorneys and in-house counsel to gather feedback on the leading firms and individuals in the profession globally.
