EIP take part in Invent It! children's workshop

EIP will help run a workshop in Bath giving children the chance to test their skills as inventors.

Senior associate Ben Hoyle, from EIP's office in Bath, will lead a series of activities at the Bath Royal Literary and Scientific Institution on Saturday 10 May in the Invent it! workshop for children over eight years old.

The children will be challenged to use their ideas and imagination to solve a series of problems, learn basic computer programming, and bring in their own inventions to share.
