

EIP

EIP to chair 2019 MIP European Patent Forum events

Partners from EIP will chair and host panel discussions at MIP European Patent Forum 2019 events on 24 and 26 September.

Gary Moss and Matt Jones will chair the Paris and Munich events respectively. At both events, EIP will host a panel discussion entitled “Strategic considerations when planning and enforcing your international patents”. Kathleen Fox-Murphy will moderate the panel discussion in both cities, with Christof Höhne as speaker in Paris and Isabelle Schaller joining the session in Munich.

This will be the sixth year of the MIP European Patent Forum and will see more than 100 senior patent professionals gather in each location to share ideas and experiences on filing, managing and litigating patent portfolios.
